

## **CICIoMT2024: A Multi-Protocol Dataset for Assessing IoMT Device Security** **Sajjad Dadkhah, Raphael Ferreira, Reginald Chukwuka Molokwu, Euclides Carlos Pinto Neto, Somayeh Sadeghi, Ali A. Ghorbani**

### **Bluetooth: attacks**

This Folder contains all the original benign, and malicious Bluetooth Low Energy (BLE) traffic collected in .pcap files. The pcap files were merged, and then divided into two groups: "train" and "test". The "train" group is used for ML training, while the "test" group is used to evaluate the ML model.
